BENEFITS

Process Control & Conformance

Alwan PrintVerifier measures and checks output device solids and tonal curves. Process assessment can be done according to G7®, ISO 15339/CGATS TR016, ISO 12647-2/3 or custom criteria...

Quality assurance

Alwan PrintVerifier identifies job aims and tolerances thanks to Alwan Job Color Ticket which is shared with Alwan ColorHub and Alwan PrintStandardizer. Alwan PrintVerifier assesses job conformance and provides you with PDF, label and XML conformance reports.

Print Control & Conformance

Alwan PrintVerifier measures and checks your output print quality. Print assessment can be done according to ISO 15339/CGATS TR016, ISO 12647-7/8 or custom criteria...

Color Control & Conformance

Alwan PrintVerifier measures and checks Spot and Brand (Device) colors on printed products or on color strips. Color assessment can be done according to ISO 15339/CGATS TR016 or Consumer Products Company custom criteria...
